

Johnny Goldsmith

Software Engineer

Summary

An experienced mobile application/web developer with skills spanning the software development lifecycle. I am seeking new opportunities in mobile-first development. I am well versed in CocoaTouch frameworks using Objective-C, and Swift as well as Android SDK and ES6+. I have a passion for designing, architecting, and programming commercial software products and experimenting with emerging technologies. I enjoy working in cross-functional teams as well as working independently.

Key Qualifications

- Putting together complex interfaces in web and native mobile
- Crafting custom UX/UI experiences
- Putting together interfaces using CSS3 and CSS pre-processors
- Experience with RESTful web services
- Component Based Architecture
- Proficient in source control using Git
- Experienced with both MacOS, Windows
- Experience in OOP
- Experience in Core Data
- Experience in Unit Testing
